Harish Rajagopal

Fourth Year Undergraduate

Computer Science and Engineering · Indian Institute of Technology Kanpur

 \bigcirc rharish101 · \square rharish@iitk.ac.in · \square +91-7318019201

EDUCATIONAL QUALIFICATIONS

Degree	Year	Institution/Board	CGPA/%
B. Tech	2016 - Present	IIT Kanpur	9.7/10.0
Sr. Secondary	2016	Maharashtra HSC	90.46%
Secondary	2014	Maharashtra SSC	93.6%

ACADEMIC ACHIEVEMENTS

- Secured 7 $\mathbf{A}\star$ grades for exceptional performance across 6 semesters.
- Awarded Academic Achievement Awards for outstanding performance in 1st and 2nd years.
- Secured All India Rank of 185 in JEE (Advanced) 2016 given by about 200 thousand students.
- Secured All India Rank of 205 in JEE (Mains) 2016 given by about 1.4 million students.

Internships

• Research Intern, NYU Tandon

Prof. Paweł Korus, Prof. Nasir Memon

May '19 - July '19

- Researched robust image hashes that are immune to typical image transformations, while being sensitive to malicious image edits such as face swaps, deep fakes, object addition/deletion.
- Constructed models that take an image and output a binary hash that would give lower *Hamming distances* for hashes of similar images while giving more considerable distances for dissimilar images.
- Developed a framework for testing against transformations like compression, contrast changes, blurring, warping.
- Trained various novel network architectures on the *triplet loss* along with *mining* of examples for improved training.
- Tested the networks against adversarial attacks such as FGSM, Projected Gradient Descent, Boundary Attack.

• Research Intern (Remote), NYU Tandon

May '18 - July '18 https://github.com/rharish101/Plasticity-Networks

Prof. Yao Wang

- Researched differentiable plasticity for domain transfer in images using Convolutional Neural Networks.
- Improved efficiency in the temporal update rule for the Hebbian weights by using transpose convolution.
- Achieved notable improvement in classification accuracy for the 20 layer models using full plasticity, when adapting
 models trained on the SVHN dataset for the MNIST dataset.

• Intern, Machine Learning Team, New York Office of IIT Kanpur Prof. Manindra Agrawal

May '17 - July '18

- Developed an *online* text clustering model using a fully-online modification of the *DBSCAN* algorithm.
- Implemented an *online* document vectorisation model based on the *Distributed Memory paragraph vectors* model.
- Deployed above models using Docker and integrated with existing infrastructure using Apache Kafka.
- Developed a Word2Vec model to identify duplicate documents using Word Mover's Distance on word vectors.
- Trained a Convolutional Neural Network with sliding windows for English Optical Character Recognition (OCR).

PROJECTS

• Compiler for Golang in Python

Jan '19 - Apr '19

Prof. Amey Karkare, CS335A Course Project

 $\rm https://github.com/rharish101/CS335A$

- Developed a compiler for translating Golang to MIPS written in Python as part of a course.
- Implemented basic C-like features like data types, variables, expressions, control statements (if-else, switch, loops), arrays, functions, pointers, structs, library imports, and I/O.

- Implemented advanced features like composite literals, struct embeddings, typedefs/aliases, operator overloading, multiple value returns, multiple parallel assignments, short declarations, and short-circuit evaluation.

• GemOS - Operating Systems Development

Prof. Debadatta Mishra, CS330A

 $\label{eq:Aug'18-Nov'$

- Developed an object-store FUSE filesystem for storing files inside a single directory.
- Implemented process scheduling and swapping, context creation, sleeping, and signal handling for GemOS.
- Implemented syscalls for writing & expanding/shrinking memory, and handlers for page faults & divide-by-zero.
- Implemented virtual memory and paging using a 4-depth radix tree page table.

• No-Frills Cab Locator - Android App

Sept '18 - Nov '18

Prof. Nisheeth Srivastava, CS252A Course Project

https://nfcl.pythonanywhere.com

- A one-button-touch cab service with apps created using the *Ionic framework* for Android as part of a course.
- Developed separate customer and driver apps using Angular2 in Typescript and Sass for styling.
- Setup a slim *Django* server to find nearest drivers, with an SQL database to store available drivers.

• Improving GANs through Test-Time Constraints

Jan '19 - Present

Prof. Vinay Namboodiri, Prof. Chetan Arora

https://cse.iitk.ac.in/users/rharish/ugp2

- Pre-trained Generative Adversarial Networks (GANs) are fine-tuned using interactive user input, inspired by the iGAN paper and the paper Exploiting Test Time Evidence to Improve Predictions of Deep Neural Networks.
- The user provides sketches of edges on a single output of the generator and a difference-of-Gaussians based loss is backpropagated through the generator to fine-tune the generator's weights.
- A regularisation term in the loss prevents the weights from deviating away from the weights learned initially.

- Multi-Agent GANs for Image Super-Resolution

Prof. Vinay Namboodiri

Aug '18 - Dec '18

https://cse.iitk.ac.in/users/rharish/ugp1

• Higher-Order Optimisation in Deep Learning

Prof. Piyush Rai, CS771A Course Project

Sept '18 - Nov '18

 $\rm https://github.com/rharish101/CS771\text{-}Project$

• 7th Inter-IIT Tech Meet (Silver Medal)

IIT Kanpur Contingent

Dec 18

• 6^{th} Inter-IIT Tech Meet

IIT Kanpur Contingent

https://github.com/rharish101/eye-in-the-sky

https://cse.iitk.ac.in/users/rharish/sixth-tech-meet

• Reinforcement Learning in Atari Games

Association of Computing Activities, IIT Kanpur

Jan '17 - July '17

May '18 - July '18

Dec '17 - Jan '18

https://github.com/rharish101/ACA-Project

• Depression Therapy Chatbot

Programming Club, IIT Kanpur

May '17 - July '17

1)

https://github.com/rharish101/PClub-Project

• Visual Attention in Image Captioning (Mentored)
Programming Club, IIT Kanpur

https://github.com/DEVANSH99/Image_cptning2018

TECHNICAL SKILLS

- Programming Languages: Python, Bash, C, C++, LATEX, PHP, HTML+CSS, MySQL, Typescript
- Software and Utilities: TensorFlow, PyTorch, Keras, Numpy, Git, OpenCV, Hyperopt, Gensim, Ionic, AutoCAD

Relevant Courses

Compiler Design $(A\star)$ Algorithms II Operating Systems

Visual Recognition Introduction to Machine Learning Data Structures and Algorithms Probability and Statistics Introduction to Linear Algebra $(A\star)$ Fundamentals of Computing $(A\star)$

Positions of Responsibility

• Secretary, Programming Club, IIT Kanpur

Aug '17 - Apr '18

• Academic Mentor, Counselling Service, IIT Kanpur

Mar '17 - Feb '18
